

IF YOU FEAR SOMETHING, YOU'LL SEE SOMETHING.

If you fear you'll die due to a suspicious package or activity on the trains or platforms, planted by some suspicious-looking person who looks just like those suspicious-looking terrorists in the Post, then chances are your paranoia will take over and you'll start seeing things. The news and the MTA are drilling fear into your head nonstop, and this could activate prejudices you didn't even know you had. So be vigilant – of yourself.
